Professional Development Workshop

Basic Needs–Informed Service Delivery: the Myth of Self–Sufficiency

Sweet Cheeks Diaper Bank is excited to invite you to register and participate in a nationally-recognized professional development workshop that teaches social service professionals how the adoption of basic needs-informed care can result in a more effective, efficient delivery of services and supports. Sometimes the root cause of a problem is more simplistic than we realize.

The basic needs-informed training is the first of its kind and designed to expand the mindset of professionals by coaching them to consider addressing the gaps in basic needs, and other poverty-related issues, in their agency assessments, patient/client intakes, and/or delivery of medical care to children and families living in poverty. The curriculum has been presented at regional and national conferences, and training workshops in communities throughout the U.S. and Puerto Rico.
